

Escape Maze

At home, you should practice two ways out of every room with your family. Can you help Bear find her way through the maze to Turtle?

Also, remember these safety tips for your home fire escape drill:

- Feel doors with the back of your hand before opening them.
- Do not open the door if it feels hot— use your second exit.
- Get out fast.
- Meet outside and then call for help.
- Fill in your emergency number here
